

KERAMIK

FARBKARTE 2019

In der Küche, im Bad und auch im Cheminéeerbau sind hochrobuste, kratzfeste Materialien gefragt. Die hochwertigen Hightechkeramik-Arten Dekton, Laminam, Florim Stone und Neolith bieten hervorragende Eigenschaften wie Hitzebeständigkeit und Kratzfestigkeit. Sie verwöhnen mit einer angenehm warmen Haptik und erlauben filigrane Anwendungen bis zu teilweise 3 Millimeter dünn. Überzeugen Sie sich selbst und lassen Sie sich durch uns beraten.
